

NETBALL SALES PRESENTER

**2023**

**GILBERT IS NETBALL**

## INFINITY X.A.S

Codes - 866022 +

This innovative shoe from Gilbert focuses on comfort and on court performance, designed for netball with features to improve agility and speed on hard court surfaces the Infinity X.A.S used GENIUS-FOAM cushioning throughout the sole and DURA carbon rubber for maximum traction and durability.

### Key Features

- **GENIUS FOAM MIDSOLE** - Super fast energy return foam with enhances spring propels players faster than ever.
- **TPU TORQUE S** - Unique setup of shank insert prevents twisting in the shoe - provides arch support. Lateral support for turning and allows for explosive and reactive stability on court.
- **X.A.S OUTSOLE** - Thin durable rubbered used in Rounded outsole for stable base and landing control.
- **DURA CARBON RUBBER** - Carbon enhanced rubber provides grip, traction and durability - suitable for high performance play on indoor courts.
- **ORTHOLITE X25 FOOTBED** - Outstanding levels of rebound and comfort from branded footbed.
- **INFINITY CAGE UPPER** - Lightweight, flexible ridge design works with foot.
- **COMFORT FIT PLUS** - New high performance last provides dynamic comfortable fit.
- **LEVEL** - High Performance shoe suitable for international netball

- **Sizes** 3 - 11 inc 4.5, 5.5, 6.5, 7.5, 8.5, 9.5, 10.5
- **Colours** White / Aqua

## IMPACT X.S

Codes - 866024+

The Impact X.S is a performance shoe from Gilbert with key focuses on comfort and weight - designed for netball this lightweight option is great for the fast nimble player. The Impact X.S used GENIUS-FOAM cushioning throughout the sole and DURA carbon + rubber for maximum traction and durability on all court types.

### Key Features

- **GENIUS FOAM MIDSOLE** - Super fast energy return foam with enhances spring propels players faster than ever.
- **TPU TORQUE S** - Unique setup of shank insert prevents twisting in the shoe - provides arch support. Lateral support for turning and allows for explosive and reactive stability on court.
- **X.A.S OUTSOLE** - Thin durable rubbered used in Rounded outsole for stable base and landing control.
- **ORTHOLITE X25 FOOTBED** - Outstanding levels of rebound and comfort from branded footbed
- **IMPACT CAGE UPPER** - Thin lightweight groove design provides breathability and works with foot contours.
- **COMFORT FIT PLUS** - New high performance last provides dynamic comfortable fit.

SIZE CHART

### Control-A-Balls

86892105

Set of five balls to improve passing and catching.

- Each ball behaves differently to challenge the user during training.

#### Match Ball

- Standard weight and grip pattern of the Spectra Ball.

#### Heavy Ball

- Approximately 650g, the player must adapt to make accurate passes.

#### Light Ball

Approximately 300g, the player must adapt to make accurate passes.

#### Gripless Ball

- Standard Spectra weight, but this ball is smooth, so in different conditions it can be very grippy or incredibly slippery.

#### Unstable Ball

- Weighs 400g and then the user adds 280g of water.
- Within the pack there is a pump that allows water to be added to the inner bladder.
- This makes the ball completely unstable as the water moves within it.

- Available in sizes 5 only.
- Available in Fluro Pink only.

86880044

- Only available as a pack of two.

### FIT TYPES

**LOOSE FIT:** A roomier and relaxed fit, styles might have a longer length than a standard fit.

**STANDARD FIT:** Not too tight, not too loose. Standard fitting apparel will fit over mid-layers without restricting movement.

**SLIM FIT:** Athletic fit, close to the body, allows the use of a baselayer when required. Ergonomically designed, performs with the body and doesn't restrict movement.

**TIGHT FIT:** Garment will fit the body like a second skin.

### ABOUT SIZING

Sizing inconsistencies can be attributed to a number of factors and vary according to the different fabrics and cuts in our range. Our Teamwear collection is available in four fits across the entire apparel line. Each is designed to meet different needs for movement, protection and versatility depending on the activity.

### HOW TO FIND YOUR SIZE

The Clothing size chart is set up in a table. One axis will lay out the size, and the other will be the measurements in inches and centimetres. Look at the row/columns that best correspond with your measurements and you'll be able to identify your size.

### IF YOU ARE BETWEEN TWO SIZES

It's up to you. If you like a tight fit? Go for the smaller size. If you're a fan of a loose fit, then go for a slightly larger size.

### HOW TO MEASURE YOUR BODY

**CHEST:** Place one end of the tape measure at the fullest part of your bust and wrap it around your body to get the measurement, keeping the tape parallel to the floor.

**WAIST:** Place one end of the tape measure at your natural waist, you want to find the narrowest part of your waist. Don't go up too far or too low to get an accurate measurement. Don't hold the tape too tight or your clothing will be hard to move in.

**HIPS:** Stand with your legs together and measure the fullest part of your hips. Be sure to go over your bottom as well. It might be challenging to keep the tape consistently level when you do it alone.

**INSIDE LEG:** The inseam is the distance of your inside leg measuring from the top of your inner thigh to your ankle. It is easiest to measure the inseam based on a well-fitting pair of pants. Measure from the crotch to the cuff on the inside seam of the leg. The number of inches, to the nearest 1/2", is the inseam length. It's best to measure your inseam with a pair of shoes on so that you can ensure the hem hits at the right point on your shoe.
