### MACDOWELL PRECISION KICKING BALL

Developed by former Canadian International Player and Team Canada Coach - Robin MacDowell. The former Rugby World Cup Sevens Coach operates multiple academies across Canada and has culminated over 25 years of coaching to create the Precision Kicking Ball.

The product aims to connect the players with the kicking fundamentals of Target, Trajectory, Breathe, Head Down and Sweet Spot.

The MacDowell Precision Kicking Ball has been developed to move an athlete through a precision kicking drill, rapidly improving confidence and precision through the range of motion required for accurate kicking.

Utilising the Gilbert Ellipses, the ball has been designed to augment the training experience to translate to a better match day performance.

Designed to connect both the mental and physical elements required for precision goal kicking.

- Overweight ball to develop wrist strength and passing distance.

- Size Options 5 only.
- Weight Approx. 1Kg.

### REBOUNDER BALL

Size 4 - 42097404  
Size 5 - 42097405

- Half ball to allow passing practice without a partner.
- Pass against a wall off either hand to improve technique.
- Durable rubber surface.
- Match ball weight with Truflight™ valve.

- Size Options 4 and 5

### REFLEX TRAINER

Reflex Trainer - 42203105

- Training aid to improve balance and passing on the run.

- Size Options 5 only

**PROTIP STUDS**

18mm x 12 -	89970410
18mm x 100 -	89970414

- A revolutionary new concept from Gilbert.
- The 18mm tipped studs replace traditional aluminium studs providing outstanding traction at a fraction of the weight of traditional studs.
- Available in packs of 12 or bags of 100.

### TRAINING EQUIPMENT

- All Gilbert pitch kits and contact equipment are made to order in our own factory from the highest quality materials.
- For a simple design, with no added words or logos, you can use a combination of colours chosen from our stock vinyls shown below.
- Should you wish to include more colours, logos or images then we can produce using a state of the art digital printing process. Any design - we will guide you through your choice.
- All equipment is made with high density foam covered with PVC in a high quality finish that can be wiped clean.

### STOCK VINYL COLOURS

- Our stock vinyl colours are detailed below. We can use these to produce a simple, yet effective design with no additional print.

### DIGITAL PRINT

- Should you wish to include more colours, logos or any design of your choice we will work with you to produce a design and use our digital printing process. Cost for digital printing on application.
- For further details please contact your sales representative or call: **0845 066 1823**

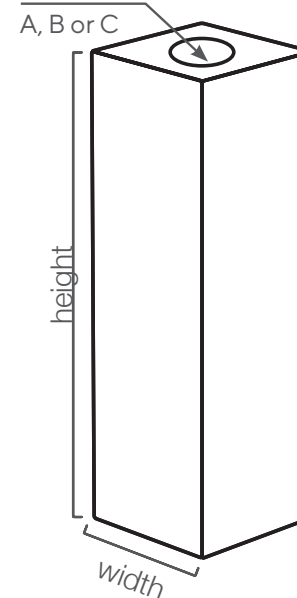

### POST PROTECTORS

- Any print design possible
- Post protectors are available in 3 post diameters, A (<10cm), B (10-15cm) & C (15-22cm)
- Made to order.

- ● **Sizes** Post diameters, please see chart below. Height and width to order.

● SIZE CHARTS

Finding the perfect size isn't always easy. The fit of your clothes depends on many things, including the cut, fabric, styling and even the undergarments you are wearing!

By following our body guide and how to measure guide, we hope to find you the best possible fit. It is always suggested that you measure more than once as your posture changes when you move and sometimes effects the measurement you take.

### Measuring:

#### Chest Circumference

Measure all the way around - taking the tape approximately 2.5 cm from pit of arm, around the fullest part of the chest. Try to keep the tape level.

#### Waist Circumference

Measure all the way around- taking the tape around the natural waist - (this is the narrowest part of your waist). Try to keep your tape measure level. Our trousers and shorts are elasticated so there always plenty of room for movement here - if you are confused - Use the hip measurement.

#### Low Hip Circumference

Measure all the way around- taking tape around the fullest part of the bottom. Try to keep the tape level

#### Inside Leg

Measure from the top of the inside leg to bottom of your heel. Please remember you can always take a trouser up if they are little long, try turning the waistband or sewing the hem.

### General Tips:

1. Measure yourself wearing underwear - do not measure over clothing.
2. Stand straight and keep both feet on the floor.
3. Make sure the tape measure is kept level.
4. Ask a friend to help take your measurements - (it's sometimes easier to have help).

Our ranges are designed with layering in mind. If you buy a jacket for your body size, you can be sure you will be able to fit a top and a light sweater underneath.

\*\*All measurements are an approximate guide.
